

LOWER SAN PITCH RIVER DISTRIBUTION SYSTEM

\*\* 1971 ASSESSMENT \*\*

\$ 3,700.00

FORWARD:

As per the minutes of the meeting of the Water Users and the State Engineer held March 31, 1971 in Manti, Utah, it was decided the budget and assessment for 1971 would be in the amount of \$ 3,700.00.

CALCULATION:

The 1971 Assessment is again calculated on the "adjusted acreage" of irrigated ground. It was reported that 26,158.60 acres of ground are to be irrigated and \$ 3,700.00 divided by 26,158.60 equals \$ 0.1414448786, cost of one pro-rated acre of ground times the amount of acres as listed for each water user equals his or her 1971 Water Assessment.

PROOF:

26,158.60 times \$ 0.1414448786 equals \$ 3,700.00
